Work Experience

Tool And Die Apprentice

ABC Corporation - April 2012 - June 2014

- Covered surfaces with dropcloths or masking tape and paper to protect surfaces during painting.
- Filled cracks, holes, or joints with caulk, putty, plaster, or other fillers, using caulking guns or putty knives.
- Applied paint, stain, varnish, enamel, or other finishes to equipment, buildings, bridges, or other structures, using brushes, spray guns, or rollers.
- Calculated the amounts of required materials and estimated costs, based on surface measurements or work orders.
- Read work orders or receive instructions from supervisors or homeowners to determine work requirements.
- Erected scaffolding or swing gates, or set up ladders, to work above ground level.
- Removed fixtures such as pictures, door knobs, lamps, or electric switch cover prior to painting.

Lead Technician

ABC Corporation - August 2009 - January 2012

- Poured paint into spray guns and adjusted nozzles and painted mixes for proper paint flow and coating thickness.
- Monitored painting operations to identify flaws, such as blisters or streaks, and correct their causes.
- Disassembled, cleaned, and reassembled sprayers and power equipment, using solvents, wire brushes, and cloths for cleaning duties and the final finish, and applied sealer once a vehicle has dried properly.
- Sprayed prepared surfaces with specified amounts of primers and decorative or finish coatings.
- Smoothed surfaces, using sandpaper, scrapers, brushes, steel wool, or sanding machines.
- Smoothed surfaces of articles to be painted, using sanding and buffing tools and equipment.
